

Exploration of data

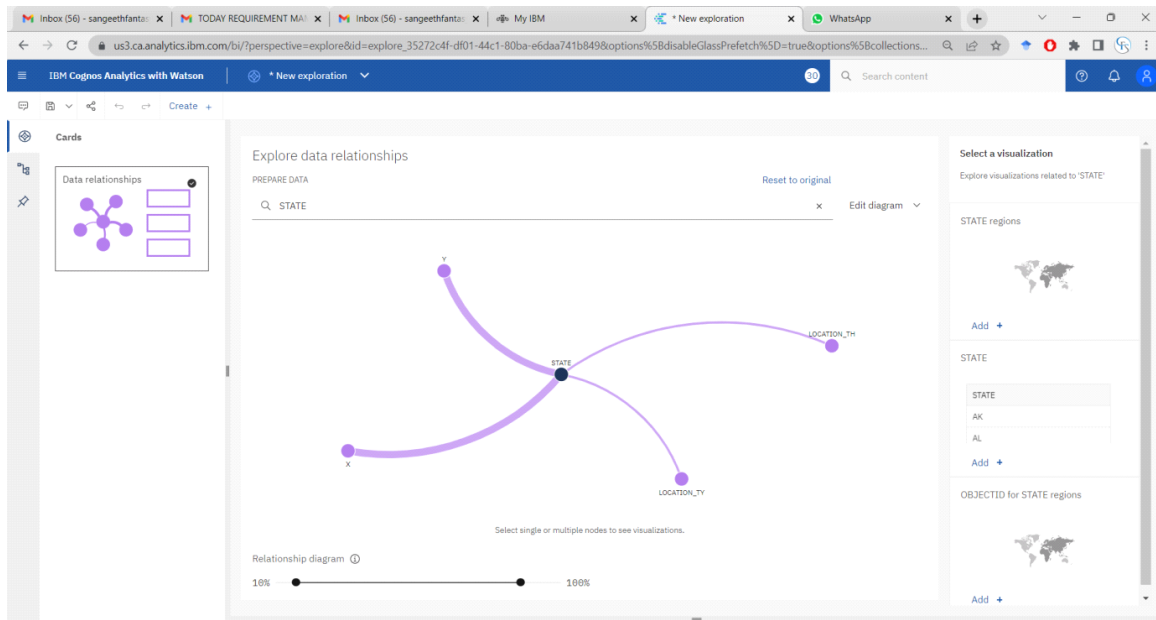

Match Status by Object ID

This screenshot shows the initial setup for a new exploration in IBM Cognos Analytics. The interface includes a top navigation bar with the title 'IBM Cognos Analytics with Watson' and a search bar. On the left, a sidebar contains a 'Cards' section with a 'Data relationships' card. The main area is titled 'Select a starting point' and contains the following elements:

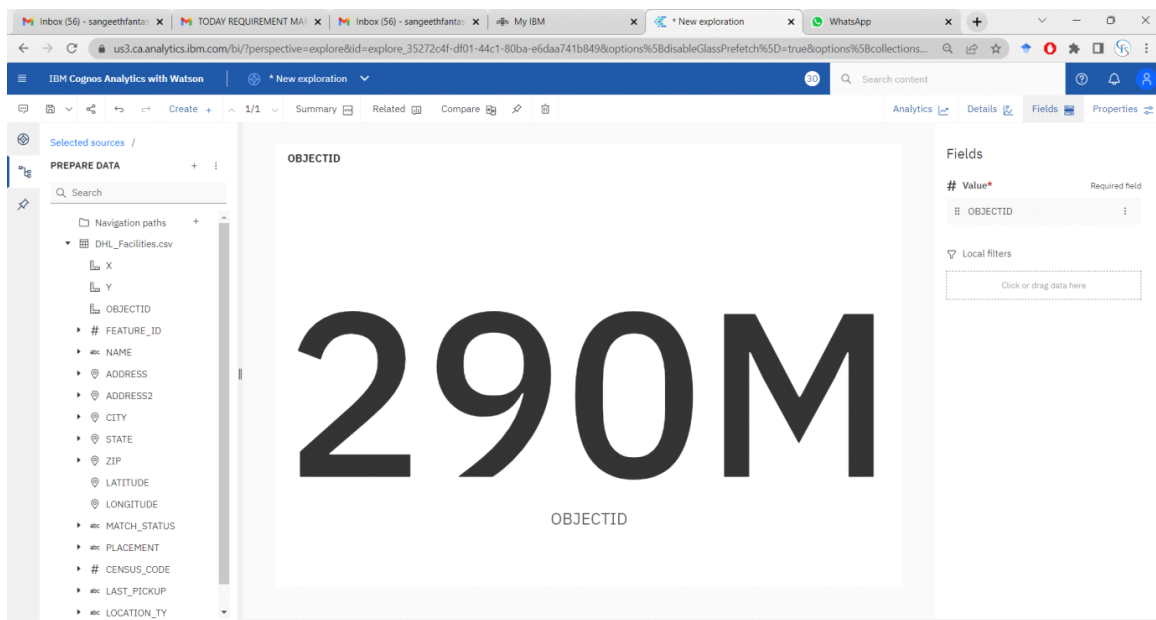

- A 'Skip' button in the top right corner.
- A text prompt: 'Every exploration includes a data relationships card.'
- A search bar with the placeholder text 'Enter data column. Not sure? Try X, Y.'
- A section titled 'Try starting with one of these...' containing four buttons: 'X', 'Y', 'OBJECTID', and 'MATCH_STATUS'.

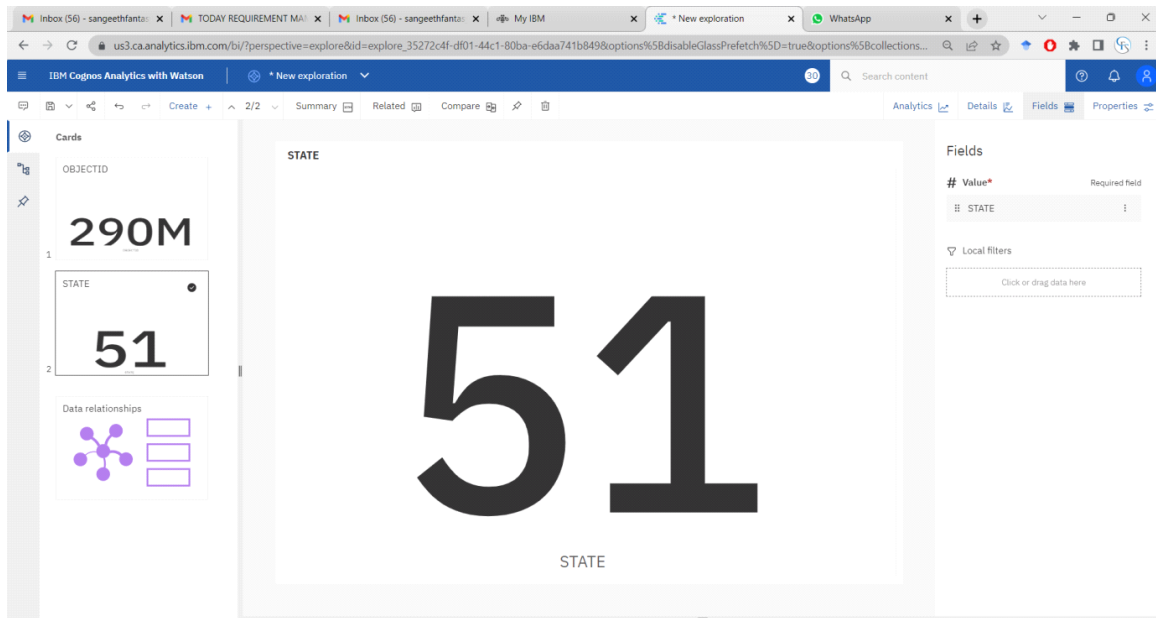

This screenshot shows the 'Explore data relationships' step in the IBM Cognos Analytics interface. The main area displays a relationship diagram with the following components:

- A title 'Explore data relationships' and a 'Reset to original' link.
- A search bar containing 'OBJECTID'.
- A diagram showing three nodes: 'Y' (left), 'OBJECTID' (center), and 'STATE' (right). Curved lines connect 'Y' to 'OBJECTID' and 'OBJECTID' to 'STATE'. A third line connects 'Y' to 'STATE'.
- A zoom slider at the bottom labeled 'Relationship diagram' with a range from 10% to 100%.
- A right sidebar titled 'Select a visualization' with the text 'Explore visualizations related to 'OBJECTID'' and three empty visualization slots.
